ALL DAY CAFÉ

Remember the days when you were sitting on a bench, scribbling your ideas on the desk and just thinking about how life will be after a few years. Those friends, good times and memories will always be in your heart throughout your life.

Thinking this in mind chef Shubham Jhunjunwala the owner and founder of The friends bench All day cafe, decided to start a cafe where people can meet, talk, remember those golden days and cherish the moments with their friends.

Shubham himself is very much intact with his old bench memories, and the memories which he shared with his best friends. And there is no better way to relish these moments with good food. The friends bench cafe is famous for its unique variety of dishes. Our menu which is in your hand is designed to satisfy every taste bud and for every age group.
